PMU Focus

Green Industry Professionals

For those who are smartphone and tablet inclined, Dr. Jim Cuda provided this information on the new Green Industry IPMpro app (<http://www.ipmproapp.com/>). The app is primarily intended for use by nursery growers, landscapers, arborists, Extension agents, and students. Available for iPhone, iPad and Android.

Annemarie Post and Fred Santana, Sarasota county faculty, have put together an informative brochure on Florida-Friendly Landscaping Guidelines that includes topics such as selecting a landscape maintenance contractor, contract specifications and sample reports. You can access this publication at

<http://sarasota.ifas.ufl.edu/FYN/Pubs/FYNCommunityGuidelines-Broc.pdf>
(glossy version)

(EDIS ENH 1080)

IPM in Schools

We had another great hands-on school IPM session with school district personnel from Orange, Sarasota, Manatee, and Escambia as well as our PMPs from private industry. We only offer this class once a year. We hope other school districts and PMPs doing work in schools next year!

PMU Reminders

Don't miss out on the **last Foundations of GHP Management for 2012!**

Date: July 25, 2012; W-F

Place: UF/IFAS Apopka MREC

Time: 8 AM-5 PM (W, TH); 8 AM-12 PM (F)

Cost: \$350

Registration will close on July 20, 2012; Friday. (Note: Registration deadlines are earlier than most CEU classes because each class is tailored for the folks enrolled, so we require time to print the material that will be distributed for each class and gather supplies for the hands-on training.)

Registration Form

What do rodents, cockroaches and bed bugs have in common? They are all cryptobiotic! We cover these pests, ants, flies and more. This 2.5 day training includes biology, identification, inspection techniques, effective treatments strategies and regulatory updates.

Don't forget to sign up for our Master's class, Oct 24-26. We only hold this class once a year. If you are interested in the State GHP Certified Operator Examination, Joe Parker (DACS) will hold a special review after the Master's class with the exam on Saturday at Apopka MREC.

Learn more from IFAS

- UF/IFAS has Extension Offices in each of Florida's sixty-seven counties. We also have twelve Research and Education Centers (RECs) and Research and Demonstration Sites (RDSs).
- If you need help a great place to start is your local County Extension Office. With an office located in every county it has never been easier to partner with the University of Florida and your local County Government. To find an office near you please visit:
